All Surface Cleaner

750

All Surface Cleaner

A Brilliant Way to Keep Restrooms and Hard Surfaces Sparkling Clean

Formula 710 cleaning chemical and 720 rinse agent are designed for use on hard tiled surfaces.

Use the low pressure setting to apply the Formula 710 Multi-Surface Cleaner.

Scrub floors, walls and fixtures to remove scum and soil buildup from surfaces.

Tennant has just the right solution for the number one cleaning challenge: restrooms and other hard surfaces. The Model 750 All Surface Cleaner can clean up to three times faster and more thoroughly than the manual “wipe down” method, which misses corners and hard to reach areas and just spreads the dirt around.

Multifunctional Cleaner

The Model 750 All Surface Cleaner is a multi-functional machine that cleans and rinses fixtures and surfaces, blow dries the rinsed surfaces and then recovers dirty water. After cleaning, the 19 gal/72 L recovery tank easily empties using the drop-down drain hose or power pump-out system. Its compact size means the Model 750 can be stowed in most custodial closets. The result is a brilliantly clean area without the operator ever touching a contaminated surface.

Tools and Accessories

The Model 750 comes complete with 10 standard tools and accessories.

Use high pressure setting to rinse tiled area from top to bottom.

Application Usages

The Model 750 efficiently cleans sinks, urinals, pool, tub, and shower areas, locker rooms, stairwells, windows and other non-porous surfaces. It's an ideal machine for use in schools and universities, senior and child care centers, health clubs, hospitals and nursing homes, sports facilities, retail stores and office buildings.

Sanitary “Touchless” Cleaning

Boost worker morale and productivity with the Model 750 All Surface Cleaner by eliminating hands-on “dirty work”. Employees will enjoy using the Model 750 because it produces brilliant results without the operator touching contaminated surfaces.

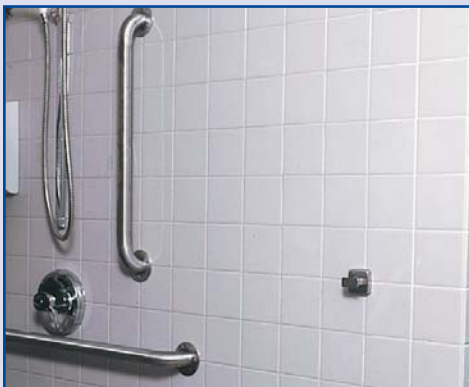

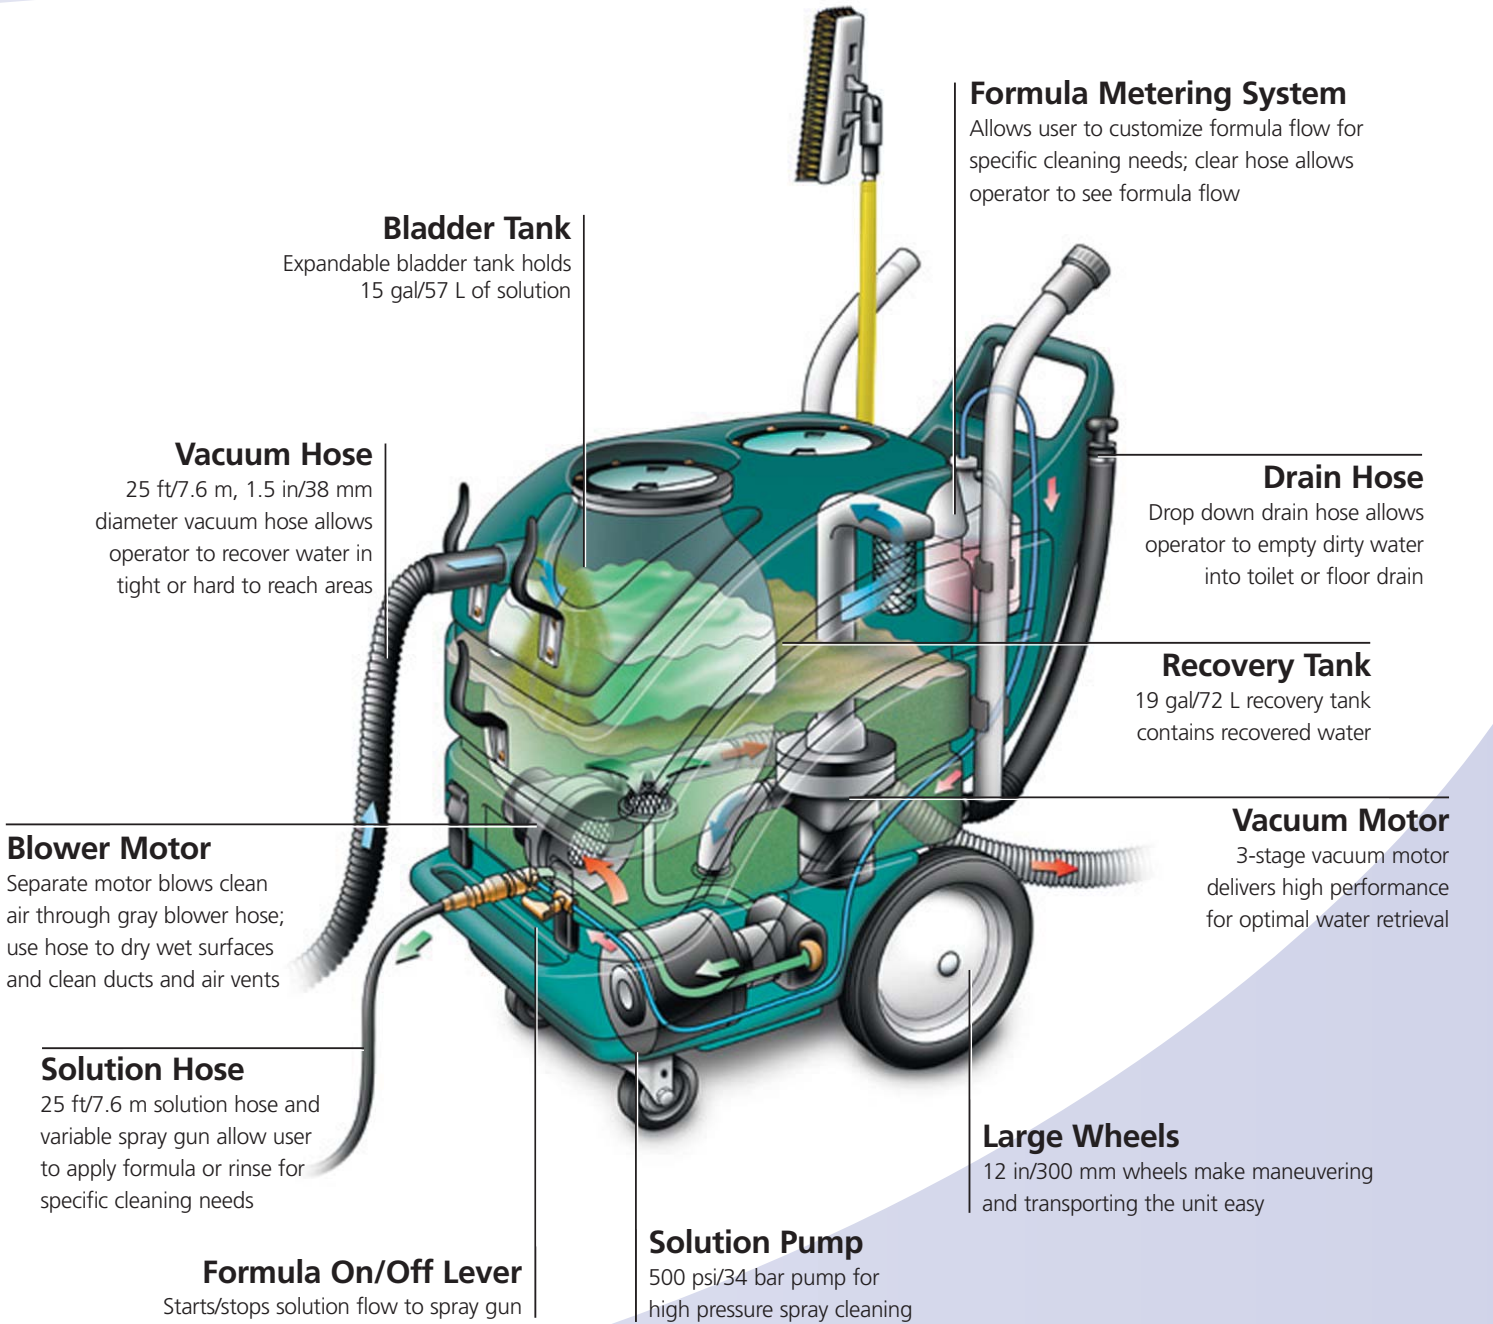

Productivity

With an increase in cleaning productivity, employees will have more time for other jobs needing attention.

The Model 750 All Surface Cleaner: A brilliant way to spend your cleaning money and time.

Recover dirty water into the recovery tank with the floor squeegee tool.

Shower areas

Urinals and toilets

Stairwells
